

Mina de Diamantes

10,000 m² -

Property Description

A substantial and impressive property located close to the pretty white village of Carratraca and set in 10000m² of land. Access is good with the entrance drive just 300m from a tarmac road. The main house is entered from the front covered terrace into a large split level living area with a dining room and a sunken lounge with double height ceiling and feature fireplace. The adjoining kitchen/breakfast room is tastefully fitted in traditional Andalusian style with an eye level cooker and hob with extractor, a pantry and utility room. Both rooms lead onto an extensive terrace that goes around most of the property. On this level there are also two bedrooms and two bathrooms. On the second floor there is a long, wide gallery that could be used as library/study space and two further bedrooms one with the installation to fit another bathroom. This floor does not currently have the flooring finished so it can be done to the buyers&' taste.

The property has been finished to a good standard with very attractive tiling finishes throughout.

Underneath the house is a massive 200m² open space that could be used as workshop/garage/games room etc or made into rental apartments. The immediate area around the house is fenced area for animals etc. The rest of the land is mainly uncultivated with some mature trees and shrubs.
